

SEEDS UP TO 11,250 SQ. FT. • NET WEIGHT 15 LBS.

BLACK BEAUTY

SUN & SHADE

PREMIUM GRASS SEED MIXTURE

 **PRODUCES A DARK GREEN LAWN**

 **GERMINATES IN 10 TO 14 DAYS**

 **GROWS WELL IN FULL SUN AND PARTIAL SHADE**

WHY BLACK BEAUTY?

- GROWS WELL IN SUNNY AND SHADY AREAS
- UNIFORM, VERTICAL GROWTH HABIT
- GROWN BY SOD GROWERS ACROSS THE USA
- DEEPLY ROOTED FOR HEALTHY TURF

“A REVOLUTIONARY APPROACH TO LAWN CARE”

Use genetically superior **BLACK BEAUTY** grass seed.

Stop soil compaction and stimulate microbes with **LOVE YOUR SOIL**.

Aadjust soil pH with **MAG-I-CAL**.

By following the New American Lawn Plan, you will be creating ideal conditions in the soil whereby your Black Beauty lawn can thrive. A healthy, growing Black Beauty lawn is your best defense against future lawn problems; it can help reduce your use of weed, insect and fungus control products.

DIRECTIONS

SUCCESSFUL SEEDING CAN BE ACCOMPLISHED IF THESE PROCEDURES ARE FOLLOWED FOR BOTH OVERSEEDING LAWNS AND ESTABLISHING NEW LAWNS OR SODDING.

1. PREPARATION: Good seed-to-soil contact is very important in order to achieve good germination of the planted grass seed.
 - (a) Mow lawn before seeding.
 - (b) Rake dead grass and debris and loosen the soil. Add additional topsoil if needed. For larger areas, a rented thatching machine may be easier. Apply seed to the loosened soil and then lightly rake it into the ground. Do not bury the seed more than 1/4" deep.
2. Prior to seeding, apply these **Jonathan Green** products in any order, on the same day.
 -  **Jonathan Green Green-Up for Seeding & Sodding** Provides the nutrients necessary for new grass growth.
 -  **Jonathan Green MAG-I-CAL for soil pH adjustment** Provides calcium - an essential grass plant nutrient which aids in the seedling's ability to absorb nutrients.
 -  **Jonathan Green Love Your Soil** Helps loosen hard, compacted soils by feeding the soil life, the microbes. Aids in grass plant root development.
3. Seed bed should be kept moist for a few weeks while the grass seed germinates. Mow the new grass after it has reached a height of 2-1/2 to 3 inches.

Consult your dealer concerning follow-up fertilizer applications and maintenance advice.

SPREADER SETTINGS

Jonathan Green New American Lawn Rotary:	6.5*	
Jonathan Green New American Lawn Deluxe and Pro Rotary:	15	
Scotts Rotary	8	
Scotts Drop	12	

My Pledge Of Satisfaction

We have made every effort in the formulation of this product to insure that you will be satisfied with the results. If, for any reason, you are not satisfied, please write and describe the problem. Our lawn specialists will make every effort to assure your success.

Benefits of lawns: Grass slows down and absorbs water run-off and controls soil erosion while cleansing water of impurities and dust. Grass plants remove carbon dioxide from the atmosphere. A 5,000 sq. ft. lawn produces enough oxygen for 8 people daily. Lawns cool off the immediate area, about 30 degrees cooler than asphalt and about 20 degrees cooler than bare soil. Lawns reduce noise, glare and increase your property value. Leave grass clippings, if possible, so nutrients and water go back into your lawn.
